

Opportunity At-A-Glance

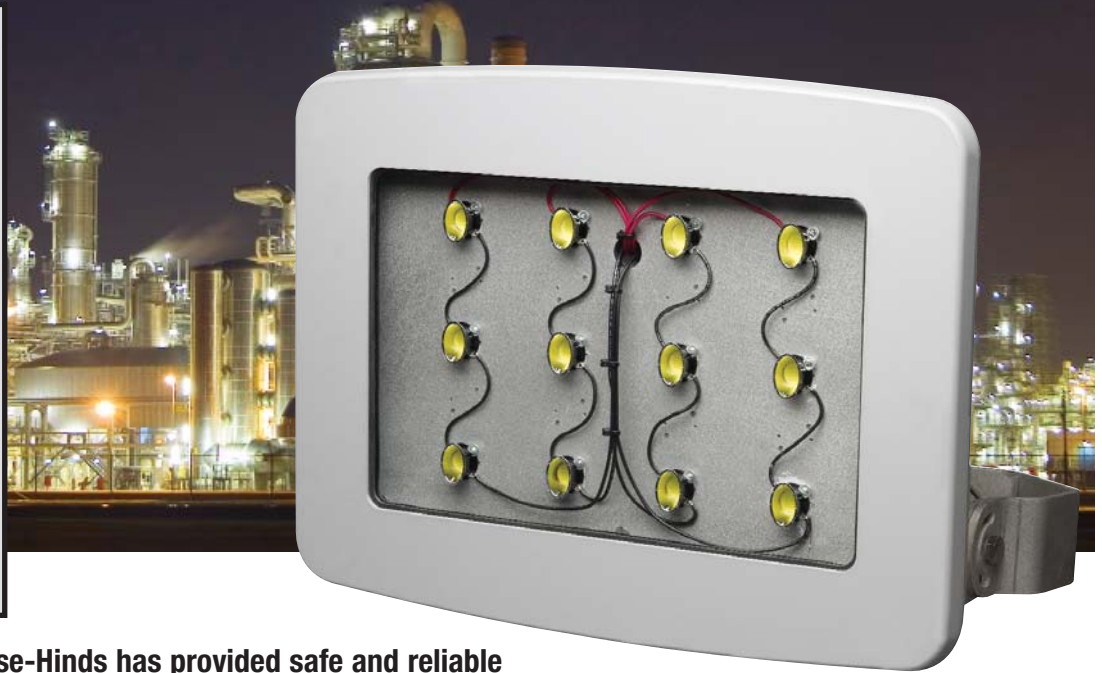

Champ® FMV LED Series Floodlight

Half the energy consumption of HID Floodlights, better lumen output and no maintenance

FMV LED Floodlight Features:

- Four models equivalent to 100W - 400W Metal Halide Floodlights
- Standard butterfly beam light pattern
- Available with 480VAC and 347VAC drivers
- Retrofits into existing FMV installations
- Available with visor for Dark Skies Compliance and a guard for added protection

For over 100 years, Cooper Crouse-Hinds has provided safe and reliable solutions to harsh and hazardous markets around the world. Customers can depend on our LED luminaires to provide that same level of reliability, now coupled with the energy savings and productivity benefits of LED technology.

FMV Model	Equivalent MH HID Lamp	Energy Savings
FMV 5L	100W - 150W	
FMV 7L	150W - 175W	
FMV 9L	175W - 250W	
FMV 11L	250W - 400W
